

Curricular Internships

As part of our collaboration programs with the academic world and our social responsibility policy we invite you to practice your skills with us, working closely with our teams.

Benefits of the program

Hands-on current technologies integrated in Link offerings.

Personal coaching and a team ready to help you at all times.

A step forward on your academic training and the opportunity to practice technical and cross-cutting skills by interacting on-the-job.

Duration

According to your student program.
